PYGMIES AND LAKE TELE

Duration : 2 to 3 weeks adventure across the thickest, most naturally difficult but fascinating jungle of Africa of the forests. Using pirogue, walking, and rafting will be your essential means of transportation through this great adventure.

Fauna, flora and culture are abundant and fabulous.

Discover the “dancers of God”, the pygmies people, and share their life.

Do not miss to photograph your encounters with Congo's forest big mammals (Elephants, gorillas, chimpanzees, buffalos, Bongos, leopards and numerous other animals and birds species).

It's a real adventure, discovery and game viewing expedition.

Imagine yourself camping at lake Tele, supposedly known as the habitat of a mysterious animal, the last dinosaur (legend).

There is a possibility to divert this expedition to Bangui in Central African Republic. Details on this option will be provided on your request.
